

# Healthcare Workforce Town Hall

Healthcare workforce continues to be a hot button issue. Iowa communities are facing challenges recruiting and retaining across the healthcare workforce population, including nursing, pharmacy, direct care, public health, and others.

The Iowa Medical Society along with partner organizations are working together to assess and evaluate the current landscape and future of the healthcare workforce in Iowa. From these meetings, the statewide action plan will evolve to address current workforce challenges and opportunities.

We want to hear from YOU! We want to hear from people within communities about their communities.
